## CULTURAL INSIGHT

### Quick Tip: 1

You can spot Cantonese pharmacies by the Chinese character 藥 ("medicine"). Pharmacists are usually very decent diagnosticians and they speak basic English. They can help you with many medical problems and can be your first line of defense if you're feeling sick in Hong Kong.

### Quick Tip: 2

Getting cash from ATMs in Hong Kong is more popular than any other method of exchanging money. In most cases, the commission or bank fee is quite low, though this may vary depending on your bank's policy. Generally, you will get the best available exchange rate as well.
