CULTURAL INSIGHT

Quick Tip: 1

You can purchase a card from any of the cities 7-Elevens, however cards purchased there have proven consistently unreliable, and it is better to seek out a Smartone-Vodafone shop and purchase one there.

Cards are priced at \$5, the cost of which you will receive on the sim card. Simply remove your home sim card and replace it with the Hong Kong sim card to use. You will receive a Hong Kong phone number on which you can be contacted, this should be on the information you receive with the card.
